“Navajo Nation Firewood Cutting Season”

Public Service Announcement

One of the most popular recreation activities on the Navajo Nation Forest isn't usually thought of as recreation. Every year people come to the Navajo Forest and Woodland areas to harvest their year's supply of firewood. The Navajo Forestry Department requires any person harvesting firewood for personal use or resale to obtain a forest product permit. The permits are available year round.

The Navajo Forestry Department does have Ponderosa Pine, Pinon, Juniper and Oak cut/split firewood for sale in Ft. Defiance, Arizona, prices vary depending on species. The Navajo Forestry Department would like to remind all people to keep the harvested areas clean of all trash and personal items. For more information on Forest Product Permits contact the Navajo Forestry Department at (928) 729-4007 in Ft. Defiance, Arizona. Thank You.
