**For purchase of Navajo Nation promo items**

September 28 is World Rabies Day, a global health observance that seeks to raise awareness about rabies and enhance prevention and control efforts. Co-sponsored by CDC and the Alliance for Rabies Control (ARC) since 2007, World Rabies Day has been celebrated in countries throughout the world, including the U.S.

World Rabies Day is an excellent time to take steps that can help prevent and control rabies, such as vaccinating pets including dogs and cats and providing education on how to avoid the animals that typically transmit rabies: raccoons, bats, skunks, and foxes.
